**FOUNDATION FACT**

THANKS to generous DONORS, by the end of 2015 the Wylie Bulldogs Education Foundation awarded a total of over \$148,600 to help our schools prepare our students to build a better future world.

Please visit our website to see the list of Teacher Grants and Student Scholarships funded in 2015.

WylieBulldogsEducationFoundation.com

Dear Foundation Friends,

Welcome to a special night! A unique evening is planned to help us celebrate how our school foundation has been blessed by our **incredible donors**. Over the past six years, the wide variety of speakers and entertainment guests at our dinners have all been eager to “give back” to Wylie because of the powerful impact of a strong public school education. Their career accomplishments, generous giving spirit and loyalty to their alma mater is a reflection of how they truly value their Wylie experience. I hope you have enjoyed their pervasive positive message at each dinner.

Our special guest this year is no exception. Jerri Stephenson, a 1999 WHS graduate, is a young woman who benefitted years ago from efforts to enrich the STEM curriculum. A broader education in the areas of science, technology, engineering and math helped prepare Jerri for success completing two college degrees and beginning her career at

NASA, a well-respected center for scientific research and space exploration. We are honored to have her as our guest. Because of GENEROUS DONOR SUPPORT, in the past six years, 40 STEM related teacher grants totaling \$50,000 have been awarded to help strengthen STEM education.

THANK YOU for supporting the Wylie Bulldogs Education Foundation with your attendance, donations and interest. Special thanks to our WBEF Board Members and Dinner Co-Chairs: Deidre Stockard and Allison Cowling for their steadfast commitment to our mission and to the great number of volunteers who gave of their time, creativity and resources to make this event successful!

We hope you enjoy this evening as we appreciate the epic creativity and beautiful music of the “Star Wars” movie series, while we are transported into a very real and promising future that is ***Beyond Star Wars!***

With genuine thanks and very best wishes,

Becky Rentz

President, Wylie Bulldogs Education Foundation
6251 Buffalo Gap Road

Mission

THE WYLIE BULLDOGS
EDUCATION FOUNDATION HAS
A MISSION OF COLLECTING
AND DISTRIBUTING GIFTS
TO PROMOTE EXCELLENCE
IN EDUCATION.

HISTORY

This foundation was initiated in April 2010, when registration papers were filed with the State of Texas requesting new nonprofit status. The bylaws were created and approved by the board with unconditional approval for nonprofit status from the IRS .

Our first six fund raiser dinners included student talent and guest alumni. This venue proved to be an effective way to communicate the mission of our foundation, while also allowing the Wylie community to celebrate a sense of community and the value of friendships. Our donor support at this sixth dinner allowed us to raise over \$85,000 with a total of \$36,560 spent on teacher grants and student scholarships during the year of 2015. We are extremely blessed to have such generous donor support of our foundation’s work. THANK YOU to our involved board members and volunteers who loyally give of their time and talents to move WBEF forward.

Our 2015 Dinner was a perfect showcase of student talent and excellence in teaching. The WHS drama department directed by Mr. Chris Shoemake, along with the choral music guidance of Mrs. Robin Davis, WHS Choir Director, resulted in a popular and entertaining “FOOTLOOSE” musical production. The polished choreography, beautiful lighting, colorful costumes and strong vocal talent made this a night to remember. These photos show a glimpse into our fifth annual dinner which showcased talent directly from Wylie High School. 🐾

PHILOSOPHY

Many school districts across Texas and the nation have used education foundations to encourage and inspire excellence in their schools as well as provide incentives to continue high performance standards and preserve valued traditions. The foundation will provide funds for needs that are beyond traditional funding. We believe that these dollars will continue to enhance the educational excellence that Wylie ISD parents and citizens have come to expect.

Our foundation has a mission of collecting and distributing gifts to promote excellence in education. Distribution of funds may be accomplished through student scholarships, grants to innovative educators, or for a special need of the school district. The Board of Directors approves distribution of funds and manages the affairs of the nonprofit corporation. 🐾

Our Foundation is governed by a Board of Directors, representing a broad spectrum of community citizens. The Foundation Board operates under strict accounting requirements of a 501(c)(3) nonprofit corporation. The Board filed Articles of Nonprofit Corporation with the State of Texas, adopted bylaws and governing policies, and received IRS approval.

WYLIE MIDDLE SCHOOL:

Ramona Nelson, Misty Cantrell,
 Stephanie Barham, Kimberly Glenn, Kayla
 Brashears, Kristen Scott, Jennifer Riley
Principal: Phil Boone
Assistant Principal: Kim McMillan

2015 THIRD ANNUAL LUNCHEON WELCOMES NEW TEACHERS

New teachers at Wylie were welcomed by the Wylie Bulldogs Education Foundation at a luncheon hosted by ARMC. Foundation committee chairperson and board member, Mimi Schultz greeted each new teacher and awarded each a \$100 gift certificate to help prepare their classrooms for this school year. ARMC hosted the catered luncheon at the Women's Center and gifted each new teacher a ceramic mug. ARMC's Marketing Director, Delores Cox awarded a \$500 donation check for the WBEF to Supt. Joey Light and President Becky Rentz. This was the third annual luncheon with a record number of 37 new teachers at WISD.

Spanish teacher, Gabriela Bundy was honored as an outstanding teacher with the "Spirit of the Bulldog" award. This award was created by the Board in honor of Becky Rentz and her dedication to the growth of the WBEF. Gabriela received a ceramic bulldog and a \$100 gift card before she shared about how a teacher grant changed the way she teaches Spanish.

Congratulations to our recipient of the 2015 "Spirit of the Bulldog"

 Ammonet

Junior High School Campus

7th and 8th Grade / \$894.30

Alison South

The money from this grant will be used to purchase a research based reading and vocabulary program for the 7th and 8th grade struggling readers. This program will help increase the confidence of these students and bring them up to grade level in reading. This program will be used daily in the classroom and will impact all struggling students in the 7th and 8th grade. This program will be added to another Wylie Bulldogs Education Foundation grant that Mrs. South received 2 years ago. She believes in the program and has watched it close gaps with struggling readers, build confidence and build their love for reading.

Middle School Campus

7th Grade / \$2,961.24

Lynlee Ueckert as a team with Robin Hart and Brandon Little

This grant will provide the funds for 360 reusable rockets, 60 engines, 3 launch controllers and 3 launch pads. This will provide an opportunity to learn about space with a hands-on, inquiry based activity that will involve building and launching a rocket. Students will get to actively see how a rocket is built and the technology that makes it work. They will understand how the rocket's engine gives it the needed thrust and force to overcome gravity to launch. Rocketry will give the students a unique way to become active participants in the discovery process of science.

High School Campus

9th-12th Grade / \$3095

Paul Munshower as a team with Cherie Speer, Mark James and Alice Hall

This grant will purchase a 3D printer, PLA filament to print products and a MakerClub membership which provides a 10% discount and free shipping on all filament purchases. To meet the needs of 21st century learners, technology must be blended in the classroom to support inquiry based learning. 3D printing is a new technology that will be at the forefront of industry when our students are adults. By allowing them to be introduced to this technology, they will develop skills necessary for the workforce of the future. They will be able to master science concepts aligned with state standards using a project based learning assessment model. Students can print lab equipment to learn science through modeling and design creative learning spaces. They will print projects to apply scientific concepts to real world projects like roller coasters, cars, machines, etc. The only limitation will be their imagination.

Junior High Campus

8th Grade Field Trip / \$2250

Abbey Wartes as a team with 7 other 8th grade language arts and science teachers

This grant asked for money to help offset some of the district's expense to take the 8th grade to Dallas to visit the Holocaust Museum and the Ross Perot Science Museum. The students study the book, Night, which depicts a Holocaust experience and the museum helps them to

fully understand what happened during that time in history. The Science Museum enhances what they have learned in class to enhance STAAR test grades. In the past, the students have paid for one meal and the museum's admission price. The transportation and sponsor costs were paid for by the district. By granting \$2250 to this year's trip, the Foundation will pay the admission fees for all 250 students to both museums.

High School Campus

10th-12th Grade / \$949.56

Stacy Sanchez as a team with Alexis Hughes

This grant will purchase a 48"x96" bulletin board cabinet which will be used to display art that meets higher level thinking skills in creativity, method and technique. Students are encouraged to reach their potential and demonstrate this through various art projects. There are now 3 art teachers with 12 periods of art and 235 students. The current display cases can only hold art for about 16-20 students at a time. Students gain a sense of pride and work VERY hard to get a chance to have their art displayed for all to see. This third display case will provide more space for students to display their work which only adds to the quality of work coming out of the classes.

Elementary Campus

2nd Grade / \$2265.92

Megan Oliver as a team with every 2nd grade teacher

This grant will be used to purchase 2 live oaks, 6 afghan pines, 30 herb plants, 60 vegetable plants, 6 crepe

myrtles, 2 soft leaf yuccas, 150 garden hand tools and 2 picnic tables. Ray Ann Gloyna, a wonderful teacher at WISD, was killed in a car wreck in 2007. In 2008, a garden was constructed in her memory at the Wylie Elementary campus. "Mrs. Gloyna's Garden" was to be used as a Science project for 2nd graders, as well as a place of reflection by teachers, students and the Wylie community. The garden has been neglected for several years and this grant will help to bring it back to life. The educational value of this outdoor experience will be invaluable. The opportunity to involve students in an activity that doesn't involve a video screen will be unfamiliar to many 2nd graders. The garden will be managed with an advisory partnership with Master Gardners of Abilene.

Middle School Campus

5th Grade / \$3130.08

Betty Bilbrey as a team with Holli Barbee, Kristy Bearden, and Allyson Solymosy

This grant will fund the purchase of 6 sets of new class novels, replacement copies of old class novels and 6 storage containers. This will excite the students with contemporary new stories with which they will make better connections. The current class novels are in pitiful condition and are out of touch with the modern lifestyle about which the students want to read. The goal is to provide fresh reading material, improve reading skills, vocabulary and word use, and overall academic skills. This will open the student's minds to the possibilities of reading materials that are perhaps unfamiliar, challenging and fun all at the same time.

Elementary School Campus

1st and 2nd Grade / \$399

Susan Langford

This grant will purchase software for creating print-based visuals (Boardmaker Plus! V.6). Students with visual and auditory processing deficits will benefit from customized visual interventions designed to make sense of information taken in through their eyes. Students will steadily improve focus, clarity, processing speed and attention span through the use of images which will in turn help the students to quickly recognize and interpret the information presented to them. Teaching the brain to easily absorb and process information with the support of visuals will help each student become more organized and efficient. Building quicker recall and scholastic confidence along with the expansion of auditory and visual memory will benefit all students.

Junior High & Middle School Campus Technology Training

\$716

Luke Hurst

This grant will purchase the registration for the conference, 2 nights in a hotel and meals for 3 days. Mr. Hurst is an Instructional Technology Specialist where he spends a couple of periods each day working with teachers to integrate technology into their curriculum. This spring, the school received 25 iPads to help with this technology integration. He has found that teachers are more willing to use the technology if they can get individualized or small group instruction. The iPadpalooza training will make him better

equipped to serve the teachers of our district and train them to use technology effectively in their classrooms. The conference will allow Mr. Hurst to spend three days collaborating with other Instructional Technology Specialists. He will be listening to a number of speakers that are certain to inspire him to make more technology integration possible. He plans to share the information he receives with all grade levels in the district.

Junior High & High School Campus

\$1000

Gabriela Bundy

This grant will allow Mrs. Bundy to attend the National Teaching Proficiency through Reading and Storytelling Conference in Reston, VA. After the conference, she will provide training to her department colleagues. Attending this conference will allow her to progress to the next skill level, from beginner to elementary. While at the conference, she will work with experts and practice those skills as well as attend several sessions a day on a variety of topics related to teaching a foreign language and using the TPRS method. In addition, she will be able to collaborate and network with other TPRS teachers from across the globe. More importantly, she will put into action the skills and knowledge gained as she teaches her students using the TPRS method. The ultimate goal is to help all Spanish students succeed in acquiring the language, as well as gain an appreciation and interest for other cultures.

High School Campus

9th-12th Grade / \$1000

Andrew Hope

This grant will be used to fund the purchase of Lego Mindstorms robotics kits for

use in the robotics class at Wylie High School. Students will use the kits to collaborate and develop designs for projects that promote critical thinking and utilize STEM curriculum. By using the kits on a daily basis, students will gain skills and experience that will help them succeed in various robotics competitions throughout the year. The robotics kits will help diversify the instruction in the classroom leading to enhanced student engagement.

Elementary School Campus

2nd Grade / \$219.78

Jennifer Rapstine

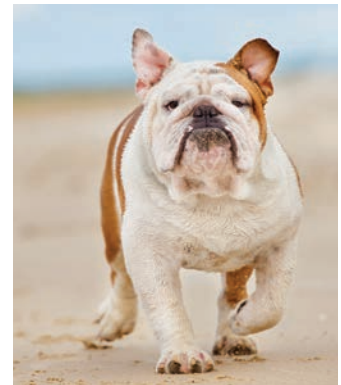

This grant requested money to replace the addition math wrap-ups which students use as a great hands-on tool to learn their basic facts. Currently two classes share the wrap-ups and this will allow both classes to have their own set. This grant will pay for 22 addition wrap-ups. Wrap-ups are a fun and unique way to help students memorize their math facts. Students wrap the string from the problem on the left to the answer on the right. They then turn the Wrap-up over to see if they got it right. They utilize many learning senses and are fun enough that they are willing to use them over and over until they master their facts. The students love to practice with them and it improves their speed and accuracy of their facts.

High School Campus

\$985.15

Leah Wilson

This grant will purchase 35 hoops to be used by both the Varsity and Junior Belles in their performances. These will create a gorgeous half-time performance for the field and the court. Properly maintained, the hoops will last for years. The drill team, each year, gives young girls the chance to be a part of a team. A tryout is held weekly for each performance. Some girls, being less skilled than others, may not be able to perform a highly skilled routine. By having a hoop prop routine, this opens the door for all those less skilled to have the opportunity to dance on the field for a football and basketball half-time performance thus generating a stronger confidence in each of these young women.

TOTAL AMOUNT OF GRANTS APPROVED:

\$19,866.03

5 @ High School, 4 @ Jr. High, 3 @ Middle School,
3 @ Elementary, 4 Science, 1 Math, 1 Spanish, 2 Reading,
1 Special Ed, 1 Technology, 1 Field Trip, 1 Belles

STUDENT SCHOLARSHIP RECIPIENTS

Congratulations to the 2015 Student Scholarship Recipients! Each student received a \$1,000 scholarship to the college/university of their choice. An additional \$500 was awarded to Kirsten McDonough based upon her recognition of excellence at the ARN Star Student Banquet during her junior year.

The Wylie Bulldogs Education Foundation awarded scholarships to graduating seniors at the end of the school year. The scholarships are funded by money raised from the Foundation's annual "We are Wylie" dinner and from community donations. In our first five years, the Foundation awarded \$44,000 in student scholarships. In May 2015, an additional \$15,500 was awarded.

Students were chosen based on a variety of criteria, including financial need, school and community involvement, grades, ACT/SAT scores, leadership skills, an essay and references. To apply, a minimum "B" average, letters of recommendation and essay are required. 🐾
